SEE
WHAT YOU
CAN DO

ORGANIZED ENERGY MANAGEMENT FOR YOUR COMPANY

CONTINUOUS WORKFLOW

Six charging cradles for simultaneous charging of up to 6 batteries. Always at hand for uninterrupted use of the optrel e3000 / e3000X.

ORGANIZED ENERGY MANAGEMENT

Simplifies the administration and maintenance of the batteries. The batteries always have a fixed place during recharging. They are also protected from accidentally falling.

NO MORE CABLE CLUTTER

The optrel multibaycharger increases the overview and reduces the risk of trip hazards caused by individual charging cables at the workplace.

SMART CONSTRUCTION

The lack of a socket and storage space are a thing of the past. The robust aluminium multi-charging station can be freely attached to any surface or optionally by wall mounting.

LED DISPLAY

A charge indicator for each battery clearly shows the charge status of all batteries.

COMPATIBLE

Compatible with all batteries of the e3000 and e3000X models.

Description

Art. No.

multibaycharger e3000-Series
US-device power cord 1 piece
