

WHERE IS MY SERIAL NUMBER?

On all optrel products, the serial number is in the format 4 digits - 7 digits (XXXX-XXXXXXX). Below you will find where this is located on each product.

For all products with an autodarkening lens, the serial number is located on the inside of the ADF lens in white text. Some users find it easier to remove the inside cover lens, as it is located by the right tab. With the exception of the Panoramaxx Laser series, this will be located on top of the inner frame.

Sphere Series

Panoramaxx & Helix Series

Panoramaxx Laser Series

WHERE IS MY SERIAL NUMBER?

On all optrel products, the serial number is in the format 4 digits - 7 digits (XXXX-XXXXXXX). Below you will find where this is located on each product.

Swiss Air

The serial number of the Swiss Air will be found on the back of the unit when the shoulder harness is removed. Simply undo the velcro straps and pull away harness.

e3000x

The serial number of the e3000x will be found on the bottom of the unit when the battery is removed.
